THE CROP DAMAGE IS NOT SO GREAT

By Associated Press. Washington, April 29.-Damages to crops in the southern states east of the Mississippi river are not as great as first reported, according to President Finley, of the Southern railway. He said today that cotton and corn suffered in the northern twothirds of the states of Mississippi, Alabama and Georgia, but further south the crops were not injured and further north they were not far enough advanced to be seriously

New York, April 29.—Anxiety to cover shorfs on the part of the bulls caused an upward rush of prices in the opening dealings in the stock market to-day. Gains ran from a large fraction to a point for practically all of the active issues. United States Steel pfd was carried up 1-1-2 and American Hide and Leather pfd 2. Lackawanna sold at a decline of

Confidence increased when the rally did not bring out any important selling and there was another vigorous upturn.

NEW YORK FUTURES.

New York, April 29.—The cotton market opened steady at an advance of 16 to 17 on May, and July of 3 to 6 points on later position in response to higher cables. The near months were influenced by covering, as there was nothing to indicate that the notices estimated at about 176. one bales were causing any liquidation, and after selling at 14.60 on the call. May advanced to 14.80 or 39 points above the closing figures of last night, without, however, any great activity or particular ex-The notices were placed at 200,000 bales

There was no real weakness, and during the middle of the day the market ruled quiet by steady at a net gain of about 11 to 24 points on the old crop and 3 to 4 points on the new.

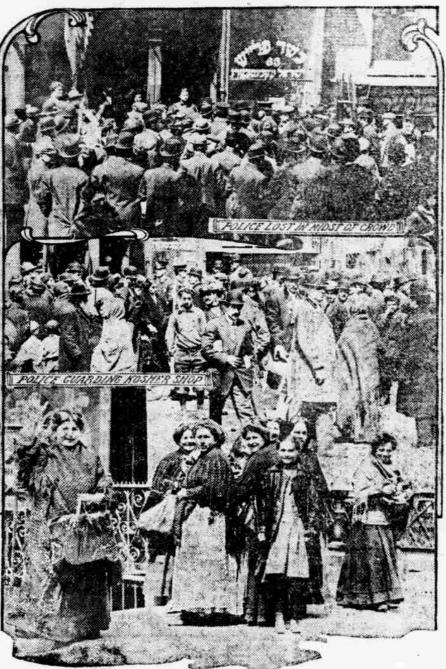

Spot close quiet 40 points higher; middling uplands 15.25; middling gulf 15.50; sales 12.900.

Toward the middle of the morning the market became dull and a few selling orders served to bring about a reaction, the old crop months losing 9 to 11 points from the previous high levels and the new crops six to seven points. This fall in prices served to bring fresh buying, some of it from outside traders, and at noon the market was steady again at new high levels for the morning session on July and October, the former month standing 19 noints over yesterday's closing, while the oints over yesterday's closing, while ther stood 11 points over. A conlatter stood II points over. A considerable part of this buying was based on bullish reports from traveling crop reporters now in Mississippi. They sent in reports stating that 90 per cent of the crop was up before the freeze and that all of it had been killed.

GRAIN AND PROVISIONS. Chicago, April 29.—Except one big purchase of 759,000 bushels of September wheat at 99 1-2, there was a noticeable lack tn-day. Same of the larger local storm. A round of the Cuban ports

KOSHER BUTCHER SHOPS IN NEW YORK

LAUGHING AT PHOTOGRAPHER

New York, April 29.—While a country wide meat boycott has been attempted at various times, it has remained for 150,000 Jewish families in New York city to start a real boycott. The police have estimated that a total of 1,000,000 people are fighting the kosher shops throughout Greater New York. Scores of butcher shops have been wrecked by crowds of angry women, who file their protest against the high price of meat by wrecking the shop, whipping the butcher and throwing the meat into the street. The police have been forced to arrest scores of women, and, as one policeman explained it, he would rather arrest "nine drunken sailors than try to take a woman to jail when she has the spirit of rioting." The riots have become so serious that the various magistrates have held a conference with the police in an effort to stop the destroying of butcher shops by sending some of the ringleaders to Blackwell's Island for long terms.

traders took occasion to hammer the market in consequence and were aided by bearish foreign advices. Apprehension as to possible further crop damage in Kansas because of dry, hot weather helped produce a recovery. The market opened 5-8c lower to 1-8c higher with September at 99 1-2 to 99 5-8c, as against 99 3-4 to 7-8c last night. The price of that option touched 99 3-8 and reacted to 99 3-4.
